

ITALIANS ENRAGED AT THEIR RULER

DEMONSTRATION AGAINST THE GOVERNMENT.

The Defeat of King Humbert's Troops in Abyssinia May Cause the Downfall of the Monarchy—Disaster Worse Than at First Reported—The Situation Summed Up.

Rome, March 5.—Mobs yesterday ruled nearly every city of any size throughout Italy. The cabinet has resigned, and the government is universally censured for its conduct of the African campaign, which has resulted in such awful bloodshed.

It is impossible to give the truth relative to the battle at Adowa, Abyssinia. The war office is believed to have the facts in its possession, but, despite entreaties and demands, it will give out

that they are having a great deal of trouble and that further disturbances are imminent.

The university has been closed on account of the disorderly propensities of the students, and many arrests have been made.

Baratieri Abandoned His Post.
London, March 5.—A dispatch to the Daily News says: "Gen. Baratieri's own report shows that he quitted the battlefield while the troops were still fighting and without knowing the fate of the column under Gens. Dabormida and Arimondi. He will be tried for abandoning his post, the penalty of which is degradation and death."

SENATOR CULLOM'S POSITION.

Illinois Statesman Is in the Field as a Presidential Candidate.

Washington, March 5.—Since Senator Cullom entered the field as a presidential candidate his mail has swollen to large proportions and he is kept busy answering letters. A good many of his friends in Illinois and elsewhere are writing him in a spirit of inquiry. To all such the senator replies in effect that he is a bona fide candidate; that he has the same right to be a candidate that any other man has, and that he hopes he may be able himself to beat them all singly and collectively. He desires that the republican delegation to the republican national convention from Illinois shall give to him their earnest support so long as in their judgment he has any chance of a nomination. When it becomes apparent that he cannot be nominated—if it does—then he expects the delegates to do what to them may seem the wisest thing looking to the interest of the country and the party, especially in Illinois, without any interference or attempted interference on his part to control them in the interest of any candidate.

HOLMES' LAST HOPE GONE.

Pennsylvania Supreme Court Sustains the Sentence of Death.

Philadelphia, March 5.—The supreme court Wednesday, in a decision by Justice Williams, overruled all assignments of error in the case of H. H. Holmes, sentenced to death for murdering Benjamin F. Pitzel, and confirmed the judgment of the court below. The opinion says that no substantial error has been pointed out and that the evidence fully sustained the verdict. The papers in the case are in the hands of Governor Hastings, who, it is believed, will fix an early day for the execution of the notorious criminal.

Storm Almost a Blizzard.

St. Paul, Minn., March 5.—Beginning early Wednesday in western Minnesota and the Dakotas there was something of a snow-storm, and the storm is reported as assuming almost blizzard proportions. Drifting was reported from several Dakota towns and the trains were beginning to suffer delay. The winter has been so open and free from rain and snow storms that much moisture is needed for the ground before the year's crops can be assured, and the snow is received with hearty welcome, although in some parts of South Dakota it is feared the stock may suffer slightly.

Severe Blaze at Johnstown, Pa.

Johnstown, Pa., March 5.—At 9:30 Tuesday evening fire broke out in the basement of the Nathan Miller block in the most central part of the town and spread to the Hannan block. At midnight the whole business portion of the town was threatened. It was only by the most persistent efforts of the firemen, several of whom were injured, that the whole square, which represents the principal business portion of the city, was saved. The losses will reach \$125,000.

John C. New for Vice-President.

Indianapolis, Ind., March 5.—It is said that within the last few days the friends of John C. New, ex-consul general to London, have been quietly canvassing his chances for securing the vote of Indiana in the national convention for the vice presidency and his candidacy will be formally announced as soon as the district delegates are selected if his friends at that time think it advisable to do so.

OLD GLORY BURNED BY THE STUDENTS

SPANISH SCHOLARS DESTROY AN AMERICAN FLAG.

Demonstrations of Hostility to the United States Still Continue—Universities Closed by the Government To Prevent Further Disturbance—Universities Closed Temporarily.

Madrid, March 5.—There were renewed disturbances here Wednesday and demonstrations of popular anger against the United States government. In spite of the special prohibition directed against them by the government, the students and other inhabitants indulged in renewed manifestations of their unfriendly sentiments against the United States. They assembled before the Madrid university and there publicly burned an American flag. The police dispersed the meeting after making several arrests.

As a result, the cabinet council has decided to temporarily close the universities. It was also decided to create a special budget for naval armaments. The premier, Senor Canovas del Castillo, denies that Spain is negotiating with any foreign power in regard to Cuba.

ILLINOIS RAILWAYS.

Statistics Collected by the State Commission for the Year 1895.

Springfield, Ill., March 5.—Advance sheets of the annual report of the Illinois railroad and warehouse commission for 1895 are issued. The report shows that passenger tariffs do not exceed 2.75 cents per mile; the average tariff of all kinds of freight, local and through, does not exceed 1.35 cents per ton per mile, being 46 and 80 per cent respectively lower than in 1870. During the last year 63,485,413 passengers were handled. But twelve persons were killed in accidents, being one person out of every 5,290,451 carried. W. J. CAMPBELL DEAD.

Republican National Committeeman for Illinois Breathes His Last.

Chicago, March 5.—William J. Campbell, the republican national committeeman from Illinois, died shortly before 2 o'clock yesterday afternoon at his home in Riverside. Pneumonia was the cause of death. He had suffered intensely for two days. Arrangements for the funeral have not been perfected, but it will probably be held Friday.

Mr. Campbell was a state senator from Cook county from 1878 to 1886, and served part of the time as president of the senate. In 1891 he succeeded Geo. R. Davis in the national republican committee, part of the time as chairman.

Vest for a Solid Silver Delegation.

St. Louis, Mo., March 5.—A leading paper states that Senator Vest, in a letter to a prominent man here, now heartily favors the proposition to have the state convention elect the Chicago delegation irrespective of the choice of districts, to the end that Missouri may send to the democratic national convention a solid delegation that will work as well as vote for the insertion of a plank in the platform demanding the free and unlimited coinage of silver and gold at the ratio of 16 to 1.

WHY SENATE VOTED ON CUBAN MATTER

REASON OF NONCURRENCE IN HOUSE RESOLUTIONS.

Suggestion That the Resolutions Be Made Joint Is Opened by Leaders in Congress—House Proceedings—Earnings of the Union Pacific—General Washington News.

Washington, March 5.—In the senate Wednesday Senator Sherman reported back the Cuban resolutions and moved that the house amendment to the senate resolutions be non-concurred in and that a conference committee be appointed. The motion was agreed to and the Vice-President appointed Senators Sherman, Morgan and Lodge a conference committee.

The senate began the consideration of the Dupont election case from Delaware. Mr. Mitchell (Ore.) spoke in favor of seating Mr. Dupont, but no action was taken. Mr. Frye, from the committee on foreign relations, reported to the house the Dingley bill providing for the extermination of the Alaskan fur seals, which was made a special order for next Thursday. Mr. Allen (Neb.) called up his resolution declaring that United States bonds and legal-tender notes are redeemable in either gold or silver coin. Mr. Teller (rep., Col.) had expressed a desire to speak upon the subject, and as he was absent the resolution was passed over. The house bill regulating proof in pension cases was passed. Many bills of minor importance were passed.

FOR A CANAL THROUGH OHIO.

Report of a Board of Engineers Submitted by Secretary Lamont.

Washington, March 5.—The secretary of war Wednesday sent to the house the report of a board of three engineers of the army of a survey of the Miami and Erie canal, the Ohio canal and connections available to make a continuous canal connecting the waters of Lake Erie with the Ohio river through the state of Ohio. The board considers the following route available for continuous canals, making the required connection: 1. Eastern route, Cleveland to Marietta. 2. Central route, Sandusky bay to Portsmouth. 3. Western route, Toledo to Cincinnati. The estimated cost of each waterway of the prescribed dimensions is: Eastern route, \$12,288,372; central route, \$18,094,165. To the latter may be added, if necessary, cost of feeder from the Wiston reservoir to the Scioto valley, \$24,000, making the whole sum for the central route \$18,118,165; western route, \$23,011,374. The board has not considered it a part of its duty to present any recommendation with regard to a canal of dimensions different from those prescribed in the act of congress. A canal having a uniform width of eighty-five feet and a depth of ten feet would admit the passage of vessels that might be considered of about the least practicable size for lake navigation.

Proceedings in the House.

Washington, March 5.—The attendance in the house Wednesday was small. The bill was passed to authorize the construction of a bridge across the Missouri River at Chamberlain, S. D. The conference report on the army appropriation bill was adopted. The house then resumed the consideration of the legislative appropriation bill, the amendment to abolish marshals' and district attorneys' fees again coming up.

The law at the present time fixes the maximum salary from fees at \$6,000. In only one case was the recommendation of the judiciary committee departed from, the western district of Pennsylvania, where the salary recommended was increased from \$3,500 to \$4,000. The request of the senate for a conference on the Cuban resolutions was received but not acted upon.

In the Interest of Labor.

Washington, March 5.—The house committee on labor has agreed to report favorably the bill to adjust the accounts of mechanics, laborers and others under the eight-hour law, with an amendment providing that the amounts found due thereunder shall be paid through the mail by check or in person to the claimants. The object of the amendment is to secure to claimants the full amounts that may be found due them and prevent the transfer of the claims to agents and others for a consideration. A sub-committee reported favorably to the full committee Representative Southwick's bill to prevent the products of convict labor being sent from one state to another.

Interested in Copyright Law.

Washington, March 5.—A delegation representing the interests of authors, photographers, and publishers appeared before the house committee on patents Wednesday in opposition to the Treloar copyright bill. The authors contend that the bill renders it uncertain whether the work of a foreigner can be copyrighted otherwise than through the assignment of his interest to a citizen of the United States, and that its effect would be to bring about a revocation of the copyright relations entered into under the act of 1891 with foreign governments.

Filles Charges Against Benedict.

Washington, March 5.—J. Louis Ulrich of Chicago, who resigned his position

as foreman of the job room at the government printing office rather than consent to his transfer to another branch of the service, has filed formal charges against Public Printer Benedict. Mr. Ulrich believes that he has made out a strong case against Mr. Benedict, whom he charges with selling good presses to friends at ridiculously low prices, and with stocking the office with machinery that is useless.

To Redeem Cherokee Strip Certificates.

Washington, March 5.—The United States treasury has been directed to redeem \$1,660,000 certificates of indebtedness of the United States issued in payment of the Cherokee strip, which was purchased from the Indians. Secretary Carlisle held that as these are government obligations no specific appropriation is necessary for their redemption. This is the first installment of certificates due March 6, 1896.

GOV. GREENHALGE DEAD.

State of Massachusetts Without a Chief Executive.

Lowell, Mass., March 5.—Gov. Frederic T. Greenhalge died at 12:30 this morning, after two weeks' illness, of paralysis and acute kidney troubles. Throughout the commonwealth bells were tolled, and the whole people are in mourning.

He was elected governor three successive times. For the first time in over twenty years the gubernatorial chair is vacant. The constitution does not transmit the title of governor to the second officer of the state in the event of the death of the first officer. Lieut. Gov. Wolcott will send a message to the legislature at once, officially notifying it of the governor's death, and will immediately issue a public proclamation announcing to the people of the commonwealth that there is a vacancy in the office of governor.

Michigan Election Law Upset.

Lansing, Mich., March 5.—The supreme court has decided that the election on the first Monday of April in this state is not a general election within the meaning of the statute and the successors of certain circuit judges who were appointed to fill vacancies cannot be elected until the general election next November. The decision is important, as it upsets a long-established custom of electing all judicial officers at the spring elections whenever possible, it having been the intent of the legislatures to eliminate the election of such officers from partisan politics.

Thinks "John L.'s" End Is Near.

Cincinnati, O., March 5.—Harry M. Weldon, an authority on matters pugilistic, has the following to say regarding John L. Sullivan: "It is the opinion of several people very close to John L. Sullivan that his days on this terrestrial sphere are numbered unless he alters his present manner of living. No less a person than 'Parson' Davies, the manager of John L. and Paddy Ryan, is authority for the statement that Sullivan has developed the first stages of dropsy."

The Iowa General Assembly.

Des Moines, Iowa, March 5.—The senate committee on temperance has prepared and will report a bill providing for the legalization of the manufacture of spirituous and malt liquors in this state, at present prohibited. Mississippi Republicans Split.

Jackson, Miss., March 5.—The state republican convention was called to order at noon Wednesday. FARMER FRED MESMER SHOT DOWN IN HIS YARD.

Killed While Going to the Barn, and There Is No Clue to the Identity of the Assassin—Was Supposed To Have Money, Received From the Sale of Stock.

Fond du Lac, March 5.—[Special].—Fred Mesmer, a well-known farmer living near here, was murdered last night while on his way to the barn. It is supposed that tramps did it, as Mesmer had sold a quantity of stock the same day and was thought to have considerable money. He was forty years old. There is no clue as yet to the perpetrators of the brutal crime, although the officers are following up every thread that can be found. The killing caused considerable excitement as Mesmer was widely acquainted and a popular man.

years the aged prelate had been in very feeble health, and about three years ago Bishop John J. Kain, of Wheeling, was elevated to an archbishopric and sent here to relieve him.

Archbishop Kenrick's death will disarrange the elaborate preparations that had been made for the reception and entertainment of Cardinal Satolli, who was expected to arrive here next Monday morning. Meeting May Bring in \$25,000.

New York, March 5.—At the headquarters of the Presbyterian board of home missions it was announced that Tuesday night's meeting at Carnegie hall netted about \$5,800. Recording Secretary Oscar E. Boyd stated that many persons present at Tuesday night's meeting, but who made no contributions at that time, have signified their intention of sending in contributions within the next few days. Altogether it is expected that fully \$25,000 will be realized as a result of the meeting.

Indians May Become Violent.

Perry, O. T., March 6.—Couriers arriving from Pawhuska, in the Osage nation, state that considerable excitement exists there among the half-breed Indians of that tribe, owing to the refusal of Government Agent Freeman to pay their annuity. Freeman is now paying the 1,500 full-bloods there; but, it is said, he refused to pay the half-breeds because of their disobeying certain orders. The half-breeds, it is said, charge Freeman with tyranny and corruption. Conservative men fear that they will resort to violence.

May Not Elect a Senator.

Frankfort, Ky., March 5.—As soon as the house assembled Wednesday a resolution was offered for an adjournment March 11, one week earlier than the constitutional limitation. This is regarded as conceding that the present legislature cannot elect a successor to Senator Blackburn. The republican joint caucus for the nomination of a candidate for United States senator continued until almost midnight, when Chairman Jones announced that State Senator W. J. Deboe had been nominated.

ALL PRIZES GIVEN AS THE FAIR CLOSES

MIDWINTER SHOW WAS WELL ORGANIZED.

There Were 1,586 Entries, and All of Them Couldn't Get Premiums, But a Lot of Them Did—Hard Work Done by Secretary Clemons and His Assistants.

At no other county fair in Wisconsin were prizes ever distributed the day awards were made.

Janesville set the example. Every prize-winner went home happy, carrying his trophy.

Only the hardest kind of hard work by Secretary Clemons, his assistant Mrs. Will Ford, and the members of the executive committee made this possible. There was a drive at top speed until 7 o'clock last evening.

At 3 o'clock the exhibit was undisturbed.

At 7 not a display was left in the building and only half a dozen prizes were unclaimed.

In the five departments there were 1,586 entries—more than the county fair has in its fifteen departments. The culinary display and the show of corn and potatoes was pronounced superior to any seen at the state fair. The number of entries put a heavy burden on members of the committee, but they met the responsibility well. President McKee, W. E. Evenson, George D. Simpson, C. S. Putnam and others of the committee were in the store from 7 in the morning until closing time both days, having nothing to eat but such hurried lunches as they could snatch. They were aided greatly by the judges who were efficient and untiring, and whose work gave general satisfaction. Prizes were awarded as follows:

BOISTEROUS MARCH.

It Is Indeed a Rough Harbinger of Spring.

For One Thing It Is the Best Month in the Year.

Everybody Knows, or Should Know, What This One Thing Is.

It is hard to agree with the calendar and hail March as the first month of spring, for it is so bleak and boisterous and brings its train so many storms, that only poets connect the idea of "gentle spring" with such a month. But March is the best time of the year in which to prepare our system for the spring.

The indoor life of the winter tells upon us severely. There is loss of appetite, confusion and giddiness in the head, sleepless nights or else horrid dreams with waking suddenly in a fright. There are noises in the head and ears, like a tea kettle singing or beats of a muffled drum, occasional deafness, headaches, black and light spots before the eyes, and sometimes partial loss of memory. The person is weak, tired and languid, is pale and sallow, has poor circulation in feet and limbs, the spirits are depressed, gloomy.

All this happens because of poor blood and weakness; the brain and nerves are only supplied with poor blood instead of good rich red blood.

MISS MAMIE WOODBURY.

To make good blood and strong nerves it is necessary to restore the general healthy action of the system by the use of a good nerve-strengthening and blood purifying medicine.

Miss Mamie Woodbury of Belfast, Me., says:

"I regard my improvement simply as wonderful, since using Dr. Greene's Nervura blood and nerve remedy. Before using the remedy I had been running down for some time. I had a liver trouble, and was very nervous and I had a tired feeling all the time. I had a poor appetite and was growing poor and losing flesh all the time. I was not able to do any kind of work and had no strength or energy. 'After using Dr. Greene's Nervura blood and nerve remedy I had no tired feeling, my nerves were strong, and I gained in flesh and now feel like myself again.'"

You see what this great remedy did for her; it can do the same thing for you if you will but try it. It is an invigorating tonic for the entire system. Why not take it now in the spring when you feel the need of it? This grand medicine is the discovery of one of the most successful physicians. Dr. Greene, of 35 West 14th street, New York City, who can always be consulted, personally or by letter, free of charge.

MUCH FEEDGOES THROUGH HERE

Whole Train Loads of Corn and Hay Sent to Western Wisconsin.

Extra large shipments of corn and hay have passed through the city in the last few days on the St. Paul road. Yesterday a special train of twenty-two cars loaded with baled hay pulled into the city, on its way from Iowa and Dakota points to different stations on the Mineral Point division. A prominent St. Paul official said that farmers in that part of the state had spent nearly \$10,000 in extra feed for their stock.

FAIR HELPED THE LIVERYMEN

Business Was Good Yesterday They Say—Hotels Also Profited.

Local liverymen say yesterday was a great day for business in their line. The farmers from all parts of the county began to come in early and when the noon hour arrived stables in many parts of the city were well filled, while hotels did a thriving business.

"If Janesville would keep this fair up a week longer," remarked an east side liveryman. "we might make up for the dull business we have been doing during the year as a whole."

Interesting Experiments with the New Stomach Remedy.

Not a Patent Medicine, But a Safe Cure for All Forms of Indigestion.

The results of recent investigation, have established, beyond question, the great value of the new preparation for indigestion and stomach troubles; it is composed of the digestive acids, pepsin, bismuth, Golden Seal and similar stomachics, prepared in the form of 20 grain lozenges, pleasant to the taste, convenient to carry when traveling, harmless to the most delicate stomach, and probably the safest, most effectual cure yet discovered for indigestion, sour stomach, loss of appetite and flesh, nausea, sick headaches, palpitation of heart, and the many symptoms arising from imperfect digestion of food. They cure because they cause the food to be promptly and thoroughly digested before it has time to sour, ferment and poison the blood and nervous system.

Judge Frank Ives, of District Court of Crookston, Minn., says: For some time I have used Stuart's Dyspepsia Tablets with seeming great benefit, with few exceptions. I have not been so free from indigestion in twenty-five years.

Geo. W. Roosevelt, U. S. Consul to Brussels, Belgium: Stuart's Dyspepsia Tablets, safe, pleasant to take, convenient to carry, give keen appetite, perfect digestion.

Mr. W. D. Tomlin, Mechanical Engineer, Duluth, Minn.: One box of Stuart's Dyspepsia Tablets has done its work, and I am again gaining flesh and strength.

O. E. Hanson, Hustonville, Ky.: I was distressed and annoyed for two years with throwing up food, often two or three times a day; had no certainty of retaining a meal if I ate one. Four boxes of the tablets from my druggist, have fully cured me. I find them pleasant to take, convenient to carry.

Rev. G. D. Brown, Mondovi, Wis.: The effect of Stuart's Dyspepsia Tablets is simply marvellous; a quite hearty dinner of broiled beef steak causes no distress since I began their use.

Over six thousand people in the state of Michigan alone in 1894 were cured of stomach troubles by Stuart's Dyspepsia Tablets.

Full sized packages may be found at all druggists at 50c., or sent by mail on receipt of price from Stuart Co., Marshall, Mich.

As a Safeguard,

Positively Demand the Royal,

OTHERWISE some thoughtless clerk may give you an alum baking powder when you wish the ROYAL; and alum baking powders are poisonous. Some manufacturers of the low-grade powders pay clerks a bonus for every can of their baking powder they will sell to patrons of ROYAL; therefore after demanding the ROYAL examine the label to make sure that ROYAL is received.

No matter what the representation, don't buy a low-priced powder. Baking powders sold at a lower price than Royal are almost invariably made from alum, and therefore inferior and dangerous to health.

ROYAL BAKING POWDER is the brand reported by the official Government and State chemists free from alum and ammonia and absolutely pure and wholesome. It makes the best and finest food, is most economical in use, and wisest housekeepers have learned to demand it and decline all alleged substitutes.

THE OFFICIAL CITY PAPER.

THIS DAY IN HISTORY.

1770—Boston massacre; citizens killed by British soldiers. The Boston massacre had great influence in arousing popular feeling against English oppression. The immediate cause was resistance to the importation of articles subject to royal tax. The government, as a measure of vengeance upon "the insolent town of Boston," occupied the place with a military force under General Gage. On this date a collision took place between soldiers and citizens in which three of the latter were killed and eight wounded. All taxes were soon repealed except a slight one on tea.

1832—Isaac Israel Hayes, arctic explorer, born in Chester county, Pa.; died 1881.
1881—Mary Louise Booth, American author and editor, died in New York; born 1831.

1895—Colonel David Ramsey Chidmomin, a veteran of the Union army, distinguished in cavalry warfare, died at Galesburg, Ill.; born 1830.

PLENTY MARGIN FOR GUESSING

They are taking straw votes for president in the eastern papers and the latest one, based on telegrams from all the states and territories give McKinley 335 votes on the first ballot; Reed, 215; Morton, 97; Allison, 80; Quay, 76; Cullom, 38; Bradley, 26; Davis, 22 with 18 scattering or undecided.

Some of the wisecracks disagree with these predictions. Quay, for example, says McKinley's vote will not go above 300 on the first ballot. The number necessary for a choice is 459, which would make McKinley lack at the outset 159 votes of the number required to give him nomination.

This showing is not quite so favorable for McKinley as some of the other estimates have been. Senator Quay thinks it the most trustworthy of all of them but Quay's anti-McKinley bias makes his opinion on the subject less valuable than it would otherwise be.

There is no doubt that McKinley will have a big lead on the first ballot in the St. Louis convention. It is the experience of conventions of both parties, though, that the man who leads on the first ballot often fails to get the nomination. Seward was first in the voting at the outset in 1860, Blaine in 1876, Grant in 1880, and Sherman in 1888, yet the nomination went to the other man in those years. This covers more than half of the republican conventions in which there were any actual contests at all. There is enough doubt about the St. Louis convention to make it worth watching.

Imaginary conversation: Mr. Cleveland—"Olney, can't you dig up some old question out of the archives of the state department, about which I can raise a storm in this country, without the slightest danger of bringing on a war?" Secretary Olney—"Sir, I am not sure, but I will try." Mr. Cleveland—"Do, while I look over my duck guns and fishing tackle."

Mr. Cleveland has bought ducking grounds on the Potomac. Now if he will only buy a ducking steamer and stop using Uncle Sam's, he can go and spend the rest of his term ducking without causing any tears anywhere.

It is now announced by a member of the cabinet that Secretary Carlisle

will be the Cleveland candidate for the democratic nomination; at least, the New York Herald, which was lately booming Cleveland for nomination, says so. If Carlisle is the candidate, he will certainly be bolted by the silver democrats, even of his own state.

Ex-Speaker Crisp must feel very confident or he would not have put "Senator or nothing" on his flag. He might be able to make a living practicing law, but he has never done so. He has practiced office-holding right along and now he wants the Georgia democrats to give him six years more of it.

"What is one man's meat is another's poison." The action of congress on the Cuban question was right from the patriotic American point of view, but entirely wrong from the Spanish point of view.

There is one thing to be said in favor of legislative deadlocks: they prove that votes in state legislatures are not bought by senatorial candidates with the frequency some people have supposed.

Senator Hill and ex-Governor Campbell both feel that they have had their full share of the honors attached to leading a political and forlorn hope, and desire no more in that line.

That Cuban resolution gives Mr. Cleveland a great opportunity, but he has had others which he neglected to take advantage of.

The "War Cry," the organ of the Salvation Army, is properly named now if it never was before.

SECRETARY KLINE, of the Y. M. C. A. and Oscar Bucklin, can tell just how many ties the C. & N. W. Company used in building their line from Janeville to Milton Junction. They attended the concert at Edgerton last night; rode to the Junction on a freight train, and finding that they could not get home on the cars, walked the whole distance, arriving here at 4 o'clock this morning.

TOOK VOWS AT CUPID'S ALTAR
Woodstock—Baker.

Alma D. Woodstock, manager of the Ceylon Tea store, and Miss Bessie L. Baker, daughter of Mr. and Mrs. Phillip E. Baker were married at 7:50 o'clock last evening, at the home of the bride's parents, 207 Washington street, by Rev. V. E. Southworth, of All Souls church. Only the immediate relatives were present and at the conclusion of the ceremony a sumptuous repast was served under the direction of Mr. and Mrs. John B. Bennet.

Both young people are well known to Janeville people. The bride is a popular young lady who has always made the Bower City her home. For some time she was stenographer at the office of George L. and Sarah H. Carrington and has made many friends by her cordial manner and pleasant disposition. The groom is one of Janeville's sterling young business men. Mr. and Mrs. Woodstock will reside at 289 South Main street.

The Fire and Water Damaged Goods.

We shall place on a separate counter all the goods damaged by our late fire and mark them 25 per cent., 50 per cent. and 75 per cent. on a dollar according to the amount of damage received. The lot consists of all wool baby flannels and shaker flannels, bleached and unbleached cotton flannels, outing flannels, twilled and plain red flannels, wide striped skirting flannels, colored fancy tickings, colored cotton shirtings, silent cloth for dining tables. The above list was not badly damaged and is very cheap at the prices we make them. Bort, Bailey & Co.

Will Wood Not Indicted.

Greencastle, Ind., March 5.—The grand jury has adjourned without returning an indictment against Will Wood as an accessory to the killing of Pearl Bryan. The investigation was not completed, owing to the absence of important witnesses. The state's attorney asked the court to reconvene the jury at the April term, when the investigation will be resumed.

TO SELL M. BRODERICK'S PANTS

The Deputy Sheriff Leves on the Evansville Man's Raiment

C. C. Brink, the Evansville deputy sheriff, will sell "one pair of tailor made trousers" to the highest bidder at that village. When M. Broderick went away he left the pants behind, and a creditor levied on them. The sale is advertised by posting notices the same as any other sheriff's sale, and the bidding will probably be lively.

All Will Hang Together.

Fort Smith, Ark., March 5.—In the United States court Judge Parker pronounced the death sentence upon George Pearce, Berry Foreman and Mollie King. Their execution is set for Thursday, April 30. None of them showed any signs of emotion, and the only one who had anything to say was Berry Foreman, who simply denied his guilt.

Assaulted in Senate Chamber.

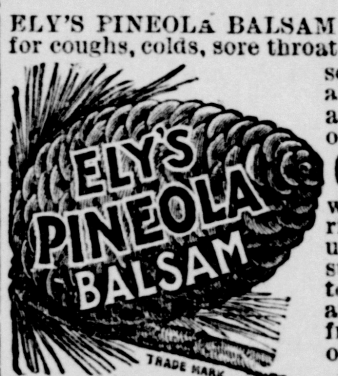

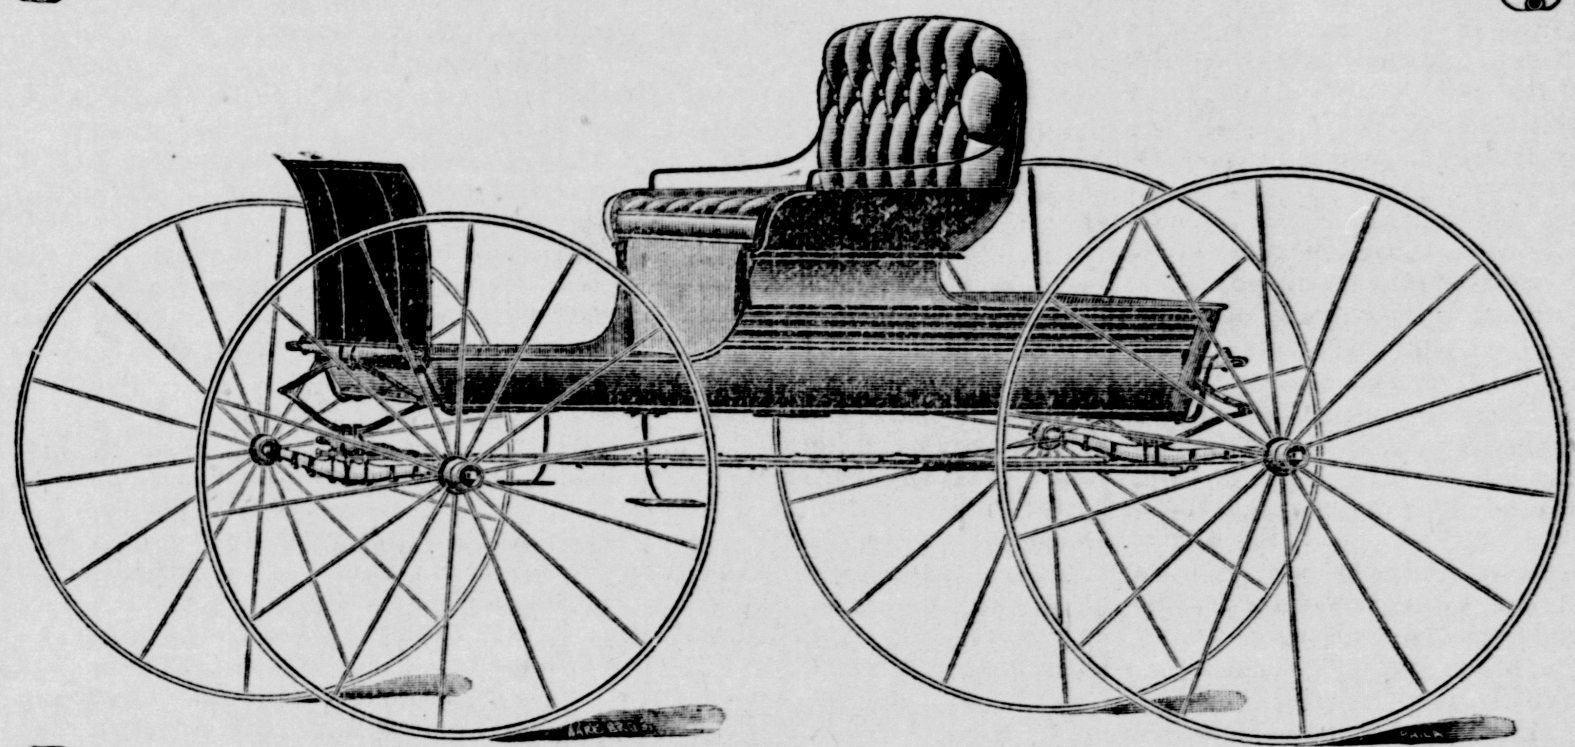

Richmond, Va., March 5.—Senator Flood entered the senate chamber yesterday and, walking up to Senator Flanagan, belabored him over the head with a cane, inflicting a painful but not dangerous wound. The assault was provoked by the fact that Flanagan a day or two ago said on the floor that Flood had falsified him.

When any part of the body isn't doing the work that nature intended it to do, it puts the whole system out of tune—out of harmony. Sickness in one part of the body is likely to run into all parts of the body. When children stand a row of bricks on end, they knock the whole row down by upsetting one brick. That is exactly what happens to the health when the bowels fail to perform their proper function. Constipation makes trouble all along the line—puts the liver out of order, is bad for the kidneys—bad for the stomach. It holds in the body poisonous matter, and because it cannot go any place else, it gets into the blood. The blood carries it all over the system. That makes sluggishness, lassitude, bad breath and foul taste in the mouth, fills the stomach with gas and causes windy belching, stops digestion in the stomach, causes sour stomach, heartburn and headache. You can avoid all such trouble, for Dr. Pierce's Pleasant Pellets cure constipation and its attendant evils.

COUGHS AND COLDS.

ELY'S PINEOLA BALSAM is a sure remedy for coughs, colds, sore throat and for asthma. It soothes quickly, abates the cough, and renders expectoration easy. CONSUMPTIVES will invariably derive benefit from its use. Many who suppose their case to be consumption are only suffering from a chronic cold or deep seated cough, often aggravated by catarrh. For catarrh use Ely's Cream Balm. Both remedies are pleasant to use. Cream Balm, 50c. per bottle; Pineola Balsam, 25c. Sold by druggists. ELY BROTHERS, 56 Warren St., New York.

DRUGGISTS TO MAKE THEIR OWN GOODS

A COOPERATIVE MANUFACTURING COMPANY PLANNED.

E. B. Heimstreet, of This City, Is Secretary, and C. Widule, of Milwaukee, Is President—Printed Matter Is Now Being Issued—Plans of the Organizers.

There is an important move on foot among Wisconsin druggists. A cooperative manufacturing company is projected. Printed matter is being gotten out in this city. The plan has been under consideration for two years and in January the secretary of the Pharmaceutical association was directed to correspond with prominent pharmacists and physicians throughout the state and get their ideas regarding the establishment of a manufactory for the manufacture of medicines to be controlled by the pharmacists. The replies were almost unanimous in favor and ninety eight out of one hundred wished to subscribe for stock. A meeting was called at Madison, March 3 and was largely attended. A constitution and by-laws were adopted and in a few minutes two hundred and five shares of stock were subscribed for at ten dollars each. The following officers and directors were elected.

President—Hon. C. Widule, Milwaukee.

Vice President—David A. Taylor, Stevens Point.

Treasurer—A. F. Menges, Madison.

Secretary—E. B. Heimstreet, Janesville.

Directors—J. C. Huber, Fond du Lac; Edwin Sumner, Madison; and R. J. Washburne, Palmyra.

All of these are old business men, and well known druggists of the state. The company will be known as the Wisconsin Pharmaceutical Manufacturing Company; the stock will be \$20,000, divided in shares of ten dollars each. No stock can be held by a retail druggist and no druggist, firm or corporation can hold more than twenty-five shares. In case the stockholder leaves the business, the company reserves the right to purchase his stock. The company will manufacture a complete line of household remedies, and also a line of veterinary medicines, and the formulae will be on every package of goods sold, in addition to this, a full line of pharmaceutical products, such as elixirs, pills, etc., will be made. Every formula will have to be endorsed by the drug committee of the Wisconsin Pharmaceutical association and the same committee will examine all goods used in the manufactory and all the products must be approved by them. The superintendent of the manufacturing department will be a graduate in pharmacy who has had years of experience in this line. The directors will hold a meeting some time this month to finish the work so well begun. They propose to boldly enter into the advertising field and will test the value of printer's ink in getting patronage. There is no reason why this should not be a great success to all parties—first, to the druggist, for he knows just what he is selling and having faith in the goods, will sell more than ever before. To the consumer, it will certainly be a gratification to know that he is getting pure goods and something that will help him.

THE FALL IS FATAL TO MRS. DICKENSON

FAINTED WHEN THE FIRE DEPARTMENT PASSED.

Injuries Received Were the Cause of Her Demise, Which Occurred at the Home, Where She Had Lived For Fifty Years, in the Town of Harmony.

Mrs. E. C. Dickenson, for fifty years a resident of her homestead in the town of Harmony, died at 1:30 o'clock this morning, as the result of a fall sustained some days ago.

Mrs. Dickenson was about to climb into her buggy, at the corner of Main and Milwaukee streets, a few days ago, when the alarm was turned in for the second fire at Bort, Bailey & Co's store. The excitement of seeing Officer Hogan rushing a farm team out of the way, and the passing of the hose cart and fire patrol wagon with gongs clanging, was too much for Mrs. Dickenson's nerves and she fainted, falling heavily on the icy pavement. She was picked up and taken home, but has since been confined to her bed by the injuries resulting from the fall, her death occurring as above stated.

Mrs. Dickenson was sixty-nine years of age. Her maiden name was Sarah Jehu, and she was married to Enos C. Dickenson in 1850. Nine children were born to them, five of them being dead. They were Susan M., deceased; Edwin J.; Ansel, of Delavan; Alfred E., deceased; Dr. Henry H., of this city; Walter L., deceased; Sarah B., deceased; Arthur N., deceased; and Eva, who resides at home.

The funeral will be held at 2 o'clock Saturday afternoon.

A Strange Logical Process.

"It is a wonder to me," said Willie Washington, "to see how quickly the minds of some men act. There are people who can decide in an instant what it would take others a long time to consider. I met a man the other evening who is that way."

"Was he a lawyer?"

"I don't know. But he had an intellectual grasp that was astounding. I met him in the hall just as he was reaching for an umbrella. 'Is that your umbrella?' he inquired. 'No,' replied I. 'In that case,' he answered, 'it's mine.'"—Washington Star.

A New Source of Pleasure.

"How did you enjoy yourself at the show?" asked Gihooly of a fat friend.

"First rate. I'd go every evening if those contortionists were there."

"What is there about those contortionists that affords you so much pleasure?"

"Well, you see, when I sit there comfortably in the orchestra and see those contortionists twist themselves out of shape, it tickles me almost to death to know that I don't have to do that for a living."—Texas Siftings.

A Story of Charles O'Connor.

At the closing of the St. Nicholas hotel in 1884, in answer to a question by the writer how he succeeded in saving the life of Colonel Loring in the memorable trial for murder committed at that hotel, Charles O'Connor gave the following account:

After the trial had proceeded for some time the court was informed by the jury that one of their number was a relative of the prisoner. The court adjourned trial for consultation on a question so serious. Mr. O'Connor, as prisoner's counsel, consented to the withdrawal of the juror and stipulated to proceed with 11 jurors. The point was doubted, but on consent of the district attorney the trial proceeded with 11 jurors. The only witness to the killing was the bootblack, who testified that on some disturbance being made by Graham in throwing out his boots the prisoner angrily came from his room and, an altercation ensuing, with his sword cane stabbed Graham and worked about the weapon when in his body, and witness shortly informed prisoner that Graham was dead.

"What did he say when you told him this?"

Answer—No.

O'Connor—Is that the answer of one who intended to kill? Is it not the answer you would make if informed a friend you had just seen was dead?

Seeing the jury somewhat impressed by this view and the change appearing in their faces, he so pressed the point that they found a verdict of manslaughter. The court imposed the heaviest penalty—imprisonment for seven years.—W. Watson in North American Review.

Butchery in War.

In one of Du Guesclin's victories so many English were taken captive that even the humblest soldier among the French had one or more prisoners. The victors, however, fell to quarreling, and ill feeling becoming rife in the French army in consequence of these quarrels over the prisoners Du Guesclin ordered all the captives to be butchered, and the brutal order was carried out.

Animals in the Rain.

Horses and cattle never look so miserable as when standing exposed to cold and driving rain. Every field in which cattle are turned loose should have some rude shelter provided, however rough and hardy the stock. If left to themselves in a state of nature, they would travel miles to some well known bank or thicket, which would at least give cover against the wind. Shut up between four hedges, they are denied alike the aid of human forethought and of their own instincts.

Bewick's vignettes of old horses or unhappy donkeys, huddled together in driving showers on some bleak common, express a vast amount of animal misery in an inch of woodcut. It seems strange that no animal, unless it be the squirrel, seems to build itself a shelter with the express object of keeping off the rain, which they all so much dislike.

Monkeys are miserable in wet and could easily build shelters if they had the sense to do so. "As the creatures hop disconsolately along in the rain," writes Mr. Kipling in his "Beast and Man in India," "or crouch on branches, with dripping backs set against the tree trunk as shelter from a driving storm, they have the air of being very sorry for themselves."

But even the orang outang, which builds a small platform in the trees on which to sleep at night, never seems to think of a roof, though the Dyaks say that when there is much rain it covers itself with the leaves of the pandanus, a large fern.—Exchange.
